Consell de Formentera president Alejandra Ferrer sat down today with the chair of Formenterers Solidaris, Maria Costa, to sign an agreement between the administration and the local NGO on cooperation projects to support development in developing countries, education and social assistance on the island in 2019.

As part of the deal, the organisation pledges to create and administer cooperation and development projects for developing countries; host lectures, round tables, forums, exhibits and conferences; pay for equipment, material and supplies associated with regular operations; stage food and fundraising drives to collect items to be sent to places in need; administer food packages provided by the Consell de Formentera and support individuals on the island with the most pressing social needs.

The Consell de Formentera pledges €3,000 to meet the costs associated with the actions included in the annual agreement. Social welfare councillor Rafael Ramírez and the organisation's secretary, Teresa Costa, were also present at the signing, which took place 1 August in Consell offices.
