

The Formentera Council Office of Sport has announced they have begun accepting applications for grant money as part of Esports 2017, a programme to fund local clubs and associations oriented around sport. The aim is to help associations promote and carry out seasonal activities (assistance with sign-ups and membership documentation, trainer costs, equipment, etc.) and ensure their economic viability by proposing mediation and counsel in areas such as business administration.

The deadline on applications is July 17. More information, plus application forms, can be found at the Formentera Council website and at esportesmes.org. Esports 2017 is a €74,000 programme that is funded by the Council. The administration issued the call for applications earlier than in years past in an effort to guarantee that this year advance payouts—an anticipated 50% of the total—are sent before the start of the 2017/2018 season.

Other assistance

Also being accepted are applications for support for young sportswomen and men and their trainers (applicants and aides must be participants in the support programme for under-18 athletes). That funding was unlocked thanks to a deal with Fundació per a l'Esport Balear.

Thirteen thousand euros in grant money is available and recipients are selected based on a series of factors in a process that is overseen by a committee formed by representatives from both the Formentera Council and Fundació per a l'Esport Balear. The deadline on those applications is July 17 and all the details can be found on the CiF website and at esportesmes.org.
