The sport department of the Consell de Formentera reports that a new parking area has been opened next to the municipal football pitch in Sant Francesc. The 2,698-sq.-m. lot has space for seventy to eighty vehicles. In addition, as government property, the new car park means savings of six thousand euros a year—the annual rent paid to occupy the previous lot.

The sport department has also purchased four seven-a-side football goals for use at the municipal pitch. The goals cost €7,457.33.
