

The Formentera Office of Tourism reports that from 7 to 10 May, Formentera20 will celebrate its eighth year as a meeting place where authorities on digital culture to share ideas and talent. Set in an array of local settings, the four-day event will embody the Formentera20 hashtag #DesconnectarPerConnectar [DisconnectToConnect].

Backed by the Consell de Formentera and part of the local publicity push known as Discover Formentera in May, the gathering was conceived as a way to, in the words of Formentera's president and tourism chief, "create incentives and develop the island's arsenal of culture- and fitness-related programming to draw tourists to Formentera in the low season".

According to director Rosa Castells, Formentera20 is "a chance to network, share ideas, get inspired and learn about what's happening in the digital world in the company of industry leaders and in the some of the island's most breathtaking settings".

Target audience

Formentera20 is for passionate professionals of the digital world—for communicators, marketing lovers and individuals who want to be in the know to better articulate their project or business proposal. Participants also share space, and that closeness makes it possible to have real networking and ideas exchange, which can serve as the catalysts for new projects. Castells says this is what makes Formentera20 truly unique.
