

The Formentera Office of Commerce is pleased to unveil a pottery course geared toward adults and spanning November, January and February at Centre Antoni Tur 'Gabrielet'. Interested parties can register from today until 8 November through the Virtual Citizen Information Office (OVAC) or in person at the OAC.

Deputy chief and commerce councillor Ana Juan welcomed the opportunity to offer the course during what she described as "a very sad year for everyone considering the passing of the course's creative heart and soul, Remedios Castillo". For Juan, "Reme was more than a teacher and potter; it's plain to see by the affection she gave to and received from her students and people who knew her. I'm sure she'd be very proud to see us carry on her work". The current offer is intended for islanders who took up ceramics under Castillo and are keen to continue, with organisers promising additional insight into assorted pottery techniques.

This year's instructor is Tania Agredano. Space is limited and classes are available in the morning and afternoon. The price is €220 and there is a 30% discount for students under 25, pensioners and people with disabilities.
