

The Formentera Council's Offices of Youth Services and Education have thrown their support behind Educart, a project of Marc Ferrer secondary school to educate with art. A year in the making, Educart takes place every day this week between 11.00am and 1.30pm at Es Molí social centre located at 88, avinguda Porto-Salè.

The goal of Educart, besides bringing art to Formentera youth, is to put them in the creative driver's seat. Participants hail from all of the island's schools and from every level of schooling, from nursery through secondary. The student-teacher initiative will culminate in an art show at Es Molí.
